

RIVER ROUGE PUBLIC LIBRARY INTRODUCTION TO POLICIES

It is an accepted fact that the establishment of a written statement of policy for the operation of a Library is a necessary and useful tool for both the Library Commission and the Library Staff. Carefully written policies provide continuity and a point of reference in times of confusion or disagreement. Our goal is to make Library materials, resources and services widely, easily and fairly available to the community.

Library Policies comply with Federal, State, and local laws. They were developed in accordance with the Library Bill of Rights and other American Library Association Guidelines which are included in the appendix.

All of the policies within have been approved by the River Rouge Public Library Commission. They are periodically reviewed and are subject to change. The Library Director and Library Commission welcome any comments or suggestions regarding these policies.
